

World Changers

Elsie, Regan and Zoe (3L)

This year the Year Threes and Fours have been learning about how to be Changemakers in our community. In our learning we have been raising money to build a library at Wisdom School in Nanjangud, India.

We have been separated into five different teams: journalist team, advertising team, creative media team, events team and documentary team. In these teams we brainstormed and planned different ways to raise money for Nanjangud.

In Term One, the Year Fours ran a fidget store and a movie night to make money for Nanjangud and raised around \$1400.

The year threes decided to organise a whole school Fun Run on Friday the 10th of June 2022.

The events team planned the map and activities, the advertising and media team created posters and the journalist and documentary team did interviews.

Everyone got to wear casual clothes and brought a gold coin donations to school.

Everyone was super excited and we knew Wisdom School would be too. Unfortunately the fun run needed to be cancelled because of the weather but we all still had fun.

Altogether, the Year Threes and Fours have raised nearly \$3000 with the movie day, fun run and other fundraisers.

We are super proud of all the effort we have put into this library and we are super happy for what we are doing and thank everyone who is supporting.
