

WASTE FREE WEDNESDAY

The Mission Statement for the Sustainability Community Action Team is To work together to have a positive impact by fostering a welcoming and sustainable school environment.

Waste Free Wednesday is an amazing opportunity to discover how we can all help to achieve this mission to create a more welcoming school. Waste Free Wednesday will help reduce the amount of loose rubbish around the school. Here are a few photos taken around the school on Tuesday.

Waste free Wednesday

The sustainability CAT (community action team) is bringing back waste free Wednesday's. This way hopefully there will be a little less litter in our school yards.

Did you know you can donate your soft plastics to Coles will turn them into fences for farmers.

What can we pack in our lunches?

Reusable beeswax wraps are amazing and also can easily be cleaned and used again

Bento boxes are a fun, waste free organisers

Keeping utensils from home for fruit or vegetable salads are easy and useful to put in bento boxes

Why should you pack waste free?

A significant amount of waste comes from our lunches so a way to avoid wrappers in our yards is to just not pack them.

A red circle with a diagonal slash over a small image of a plastic wrapper, indicating that such items are not allowed.
